

HOW A NEW INTRANET WILL IMPROVE YOUR ORGANISATION

There are lots of benefits that a modern intranet can bring to your organisation...

Mobility

9/10 of SMB employees spend at least 20% of their time away from their primary workplace

31% of employees in mid-market firms require mobile access to organisational data

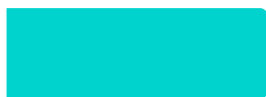

Employee mobility leads to 30% better processes and 23% more productivity

Social Collaboration

Organisations with strong online social networks are 7% more productive

61% of Australian respondents believe that social media will play the biggest work collaboration platform

Organisations that rolled-out and installed social media tools internally found that there was a 20% increase in employee satisfaction

70% of workers say internal social business and collaboration tools has improved productivity

Productivity

By using social tools, organisations can raise the productivity of knowledge workers by up to 25%

Mid-sized organisation's could gain AU\$6.6m p.a. in employee productivity by improving its intranet design

Innovate

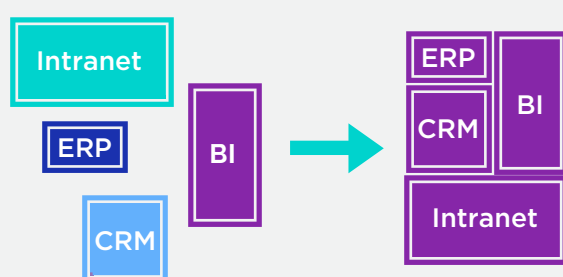

87% of employees believe that new digital technology will help their organisation innovate

A modern, integrated intranet is pivotal to a successful digital transformation project

Transformation

58% cite lack of internal capability as holding back business transformation

The top objective that SMBs want with digital transformation is 'improve the way our organisation uses data and information' (42%)
